No bold step to stop spiralling price increase: Ram Naik

Mumbai, Thursday: "There is no bold step to stop spiralling price increase. While it is necessary to form a sound petroleum policy, Finance Minister has thought of reviewing oil exploration policy only, thereby indicating that he has not understood the seriousness of the problem. He has also forgotten that urban people need to have affordable houses. The Budget has no word for lakhs of fishermen thereby putting salt on their wounds", commented Shri Ram Naik, former Petroleum Minister on the general budget presented by Finance Minister Shri P.C. Chidambaram.
